Report of the Expert Meeting to Identify the Needs for a Subsidiary Body on the Technical and Socio-economic Aspects of Aquaculture in the Mediterranean Santiago De Compostela, Spain, 2-3 June 2006

By General Fisheries Commission for the Mediterranean

Food & Agriculture Organization of the United Nations (FAO). Paperback. Book Condition: new. BRAND NEW, Report of the Expert Meeting to Identify the Needs for a Subsidiary Body on the Technical and Socio-economic Aspects of Aquaculture in the Mediterranean Santiago De Compostela, Spain, 2-3 June 2006, General Fisheries Commission for the Mediterranean, This meeting was organized as a result of a process, comprising an external evaluation of the Committee on Aquaculture (CAQ) and its Networks, in 2004, and the endorsement by the General Fisheries Commission for the Mediterranean (GFCM) at its thirtieth session (January 2006) of a meeting of experts to identify the needs for a GFCM subsidiary body of CAQ which would deal with the socio-economic and technical aspects of aquaculture in the Mediterranean. The experts defined the terms of reference, priorities and modus operandi of such a subsidiary body. They also requested the fifth session of CAQ: to endorse the establishment of the Coordinating Steering Group on Technical, Economic and Social Aspects of Aquaculture in the Mediterranean (TESAM) and the ad hoc working groups proposed, to present results to the Commission at its forthcoming session, to review and redefine the objectives and terms of reference of the GFCM CAQ...

Reviews

An exceptional pdf and the typeface utilized was fascinating to read through. It can be written in straightforward words and phrases instead of confusing. I am just quickly could possibly get a delight of looking at a written ebook.

-- Prof. Arlie Bogan

It in a single of the best book. This is for those who statte there had not been a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Dr. Barney Robel Jr.
