Current Intrapartum Care Practices in India

By Rizwana Ansari

VDM Verlag Mai 2008, 2008. Taschenbuch. Book Condition: Neu. 220x150x5 mm. This item is printed on demand - Print on Demand Neuware - According to the annual report of the Government of India, 100,000 women annually continue to die because of childbirth related complications (Ministry of Health and Family Welfare (Government of India), 2000-2001). In India, over 90% of women become mothers and a majority of them deliver without skilled assistance during delivery. This translates to approximately 30 million women in India experiencing pregnancy every year, and 27 million having live births (Bakshi, 2006). Of these, 136,000 maternal deaths occur every year due to childbirth complications, most of which can be prevented. Literature reveals that lack of appropriate care during pregnancy and childbirth, and especially the inadequacy of services for detecting and managing complications, explains most of the maternal deaths. Less attention has been paid to the quality of care within hospital based-services and there is growing evidence that women receive and experience appalling care in some institutions. A convenience sample (n = 188) of maternity care providers comprising doctors and nurse-midwives was obtained from the northern states of India. A semi-structured survey questionnaire was developed with 34 items in...

Reviews

This book is definitely worth acquiring. I have go through and so i am certain that i will likely to read through again again in the future. Its been printed in an exceptionally basic way in fact it is only after i finished reading this publication in which actually altered me, change the way in my opinion.
-- Andres Bashirian

Comprehensive guide for publication fanatics. This really is for all who statte there had not been a well worth reading through. I discovered this ebook from my dad and i encouraged this book to find out.
