The Analysis Of Water, For Household And Municipal Purposes

By E.M. Chamot

Read Books, United Kingdom, 2008. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.The student of Sanitary Chemistry should ever bear in mind that the Water Analyst almost invariably has a complex problem to solve in the case of every sample of water submitted to him for examination. He is called upon to answer the following questions 1. Is the water in question potable 2. If not, what is the trouble 3. Is it possible to form an opinion as to the future quality of the water 4. Can the water be improved in quality, and how 5. Does the water contain constituents rendering it unsatisfactory or undesirable for general household or municipal use 6. Is the water suitable for general industrial purposes It is thus essential that the analyst shall have clearly before him these questions that he may so obtain his samples and so plan his analyses as to enable him to form an opinion and properly advise his client. The complete data necessary for the formation of a reliable opinion as to the fitness or desirability of a water for a municipal or household water supply and...
