RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 72 pages. Original publisher: Denver, CO (999 18th Street, Suite 300, Denver 80202-2466) : U. S. Environmental Protection Agency, Region 8, Pollution Prevention Program, 2000. OCLC Number: (OCOLOC)45802479 Subject: National parks and reserves -- Cleaning -- United States. Excerpt: . . . PARK USAGE: So many people visit the Park in the summer that it is hard for the staff to get into the facilities to clean during the day. For example, Old Faithful may have more than 25, 000 visitors a day during July and August. Visitors form lines outside the bathrooms when they are closed for cleaning. FACILITIES: Many park buildings are old, and some are historic structures. Fixtures at some locations are old and stain easily. A few locations have highly mineralized water. Heavily-used vault toilets are pumped every day. Visitor centers have 12-15 feet tall glass or plastic display cases that attract dust, finger prints, gum, and grease. JANITORIAL Offices Visitor Centers Stores Restrooms Employee facilities Maintenance buildings FOOD SERVICE Kitchens Restaurants HOUSEKEEPING Lodging JANITORIAL Medical buildings Service and gas stations Gift stores STAKEHOLDERS: Finally, there are a variety of stakeholders in the parks besides the National Park Service--numerous concessionaires operate facilities in the Park and in some cases, share storage facilities. The consultants for this project had previous experience in converting large and small operations to environmentally preferable cleaning products. They converted Signal Mountain Lodge in Grand Teton National Park in 1991 and helped the City of Santa Monica, California, establish their environmentally preferable janitorial products program in the mid-1990s. Santa Monica's program is considered to be one of the leading environmentally preferable janitorial programs in the country. 10 Background This item ships from La Vergne, TN. Paperback.
