The Nigerian Economy: A Macroeconometric and Input-Output Model (Hardback)

By Oshikoya Temitope Waheed

ABC-CLIO, United States, 1990. Hardback. Book Condition: New. New.. 239 x 157 mm. Language: English . Brand New Book ***** Print on Demand *****.This book combines descriptive, technical, empirical, policy evaluation, and forecasting methodologies to provide a systematic analysis of the the Nigerian economy--the largest and most dominant economy in sub-Saharan Africa. The author develops and tests an integrated macroeconomic input-output model of the economy s workings, using it to explain Nigeria s recent economic growth and development and to forecast the country s future growth prospects. The model also enables Oshikoya to provide a source of information on estimates of the structural parameters of the Nigerian economy; to evaluate the role of government policy in determining general levels of economic activity; to study the relationships among the major economic variables and the determinants of their magnitudes, composition, and rates of change over time; and to examine the impacts of such factors as fluctuations in the world petroleum market, technological change, and external debt accumulation on economic growth in Nigeria. An ideal supplemental text for courses in development economics, this volume will also be of significant assistance in the design, formulation, and evaluation of macro-policy initiatives, forecasting, and development planning...
