Headline Publishing Group. Paperback. Book Condition: new. BRAND NEW, The Alchemists: Inside the Secret World of Central Bankers, Neil Irwin, When the first rumblings of the coming financial crisis were heard in August 2007, three men who were never elected to public office suddenly became the most powerful men in the world. They were the leaders of the world's three most important central banks: Ben Bernanke of the U.S. Federal Reserve, Mervyn King of the Bank of England, and Jean-Claude Trichet of the European Central Bank. Over the next five years, they and their fellow central bankers deployed trillions of dollars, pounds and euros to try and contain the waves of panic that threatened to bring down the global financial system. It is the story of how these figures and institutions became what they are - the possessors of extraordinary power over our collective fate. What they chose to do with those powers is the heart of the story Irwin tells. Irwin covered the financial crisis for the Washington Post, enjoying privileged access to leading central bankers and the people close to them. His account, based on reporting that took place in 27 cities in 11 countries, is the holistic, truly global story of the central bankers' role in the world economy we have been missing. It is a landmark reckoning with central bankers and their power,...
